Mr. Nickerson,

My name is (b) (6). We partner with CH2M, a global engineering and environmental remediation firm that has been nationally recognized for their work cleaning up the Rocky Flats Department of Energy Lab. CH2M is interested in discussing the sale and transition of Plum Island.

Kirk Brewer, who leads CH2M federal efforts and Lisa Forrest will be in Boston February 28 and March 1st. Do you or an appropriate member of your team have some time to meet with them the afternoon of Feb.28 or March 1?

Thanks,

(b) (6)

Hey guys! Over the next two weeks I'd like for you to work closely with the senior leaders in the region to determine priorities for 2014. As we've discussed, I'm working on the regional performance measures. And unlike last year, I'd like for us to build our news article measurement around actual projects, not arbitrary numbers. That said, try to identify at least 7 projects to build comms plans around. We can then place measurements around those. We can also look at ongoing programs and projects and high light those. Let's try to think of things other than CFL. While it's a great program, I think we can think a bit more out of the box.

Also, this year, we will be expected to set up ed board meetings with regional leadership as pitch interviews with the PBS and FAS RCs with those local reporters that cover GSA, real estate, acquisition, etc. We can build the strategy for these around the 7 projects, and kill a few birds with one stone.

The media affairs team here in central office will be expected to do the same. Betsaida has already set our metrics. That said, if we determine what the media priorities will be in your region, it will be easier to set fair metrics, and we wont have to rely on a random number.

As always, please feel free to follow up with questions.

Have a great holiday!
